

KAYTON

ABOUT COMPANY

Kayton CJSC was established in 2010 and located in Baku, Azerbaijan. Certified ISO 9001: 2015 “Quality Management System» and ISO 14005. We operate in excellence supply rental and maintenance services of construction equipment, vehicles and lifting equipment to choose from our equipment base and offer wide range logistics services. Kayton extends competitive rates and a consistently high level of services to all clients. We value our role in the community, where we recognize the responsibility and opportunity to contribute to society and make a meaningful difference.

Mission & Vision:

Our mission is to provide supply solutions to our customers and exceed their expectations in service, quality and value. Our goal is to be the best and preferred logistics company in Azerbaijan and offer service beyond customer satisfaction and demand.

Values:

Integrity - We insist on open, honest and fair relationships with our customers.

People - We respect our employees and, value their contributions and as a team, delivering exceptional results to our clients.

Clients - We value our clients as business partners. We are dedicated to providing the highest quality of service to them.

LOGISTICS SERVICES

The staff of the Company is represented by highly skilled and competent employees in the field of transportation, export-import operations, customs clearance and terminal services being involved into major logistics projects.

Freight Forwarding

Kayton CJSC provides a comprehensive range of freight forwarding services for all types of cargo with no restriction as to size, weight or mode.

We handle shipments in accordance with client's individual requirements. Working with our global network of agents/partners, and subcontractors, we offer the best from global market.

Customs clearance & Brokerage

All operations conducted in accordance with Customs legislations and rules providing with customs pre-entry services, customized import process and procedures, Harmonized Commodity Description and Coding System, placing the cargo under different customs regimes, pre-evaluations and calculation of customs duties and taxes, Tax Exemption certificate obtaining, customs reconciliations reports.

Our customs specialists have the expertise required to navigate customs clearance processes at all local customs points. They continuously participate in the trainings strengthening their professional qualification. Customs & brokerage service offered is fully compliant with all regulatory requirements. We can offer below range of services to guarantee timely and reliable movement of your goods through the customs process.

Project Logistics

Our project team offers solutions to bring your non-containerized load (NCL), out-of-gauge and heavy-lift shipments as well as dealing with break bulk and chartering. We use two step approach to any project providing preliminary calculations of involved costs, time required for execution and keep close contact with client to provide project plan in line with customer needs.

Consulting and advisory

Our specialists will advise on the optimal method and routes and perform consultation on customs clearance procedures.

Prior to move any consignments our specialists conduct advisory and consulting services over the shipping documents defining HS codes and permissions & certificates required for smooth customs clearance process. In cooperation with insurance company we provide the insurance for general cargo as well as for specific cargo that can be insured on special conditions and tariffs.

Cranes

From basic cranes and trailers through to specialized heavy lifting solutions, Kayton's rental services help you deliver your project safely and on-schedule.

Time is money – no matter how big or small the project is. And because the heavy lifting and transport of oversized components is nearly always on a project's critical path, working with the right partner is key to keeping it on schedule. With the world's largest fleet of heavy lifting and haulage equipment and experienced teams of operators, Kayton can support you with our rental services. Whether you need a conventional trailer for a 50-mile haul, or a crawler crane plus crew for several months, we are ready to help you achieve your goals on or ahead of schedule.

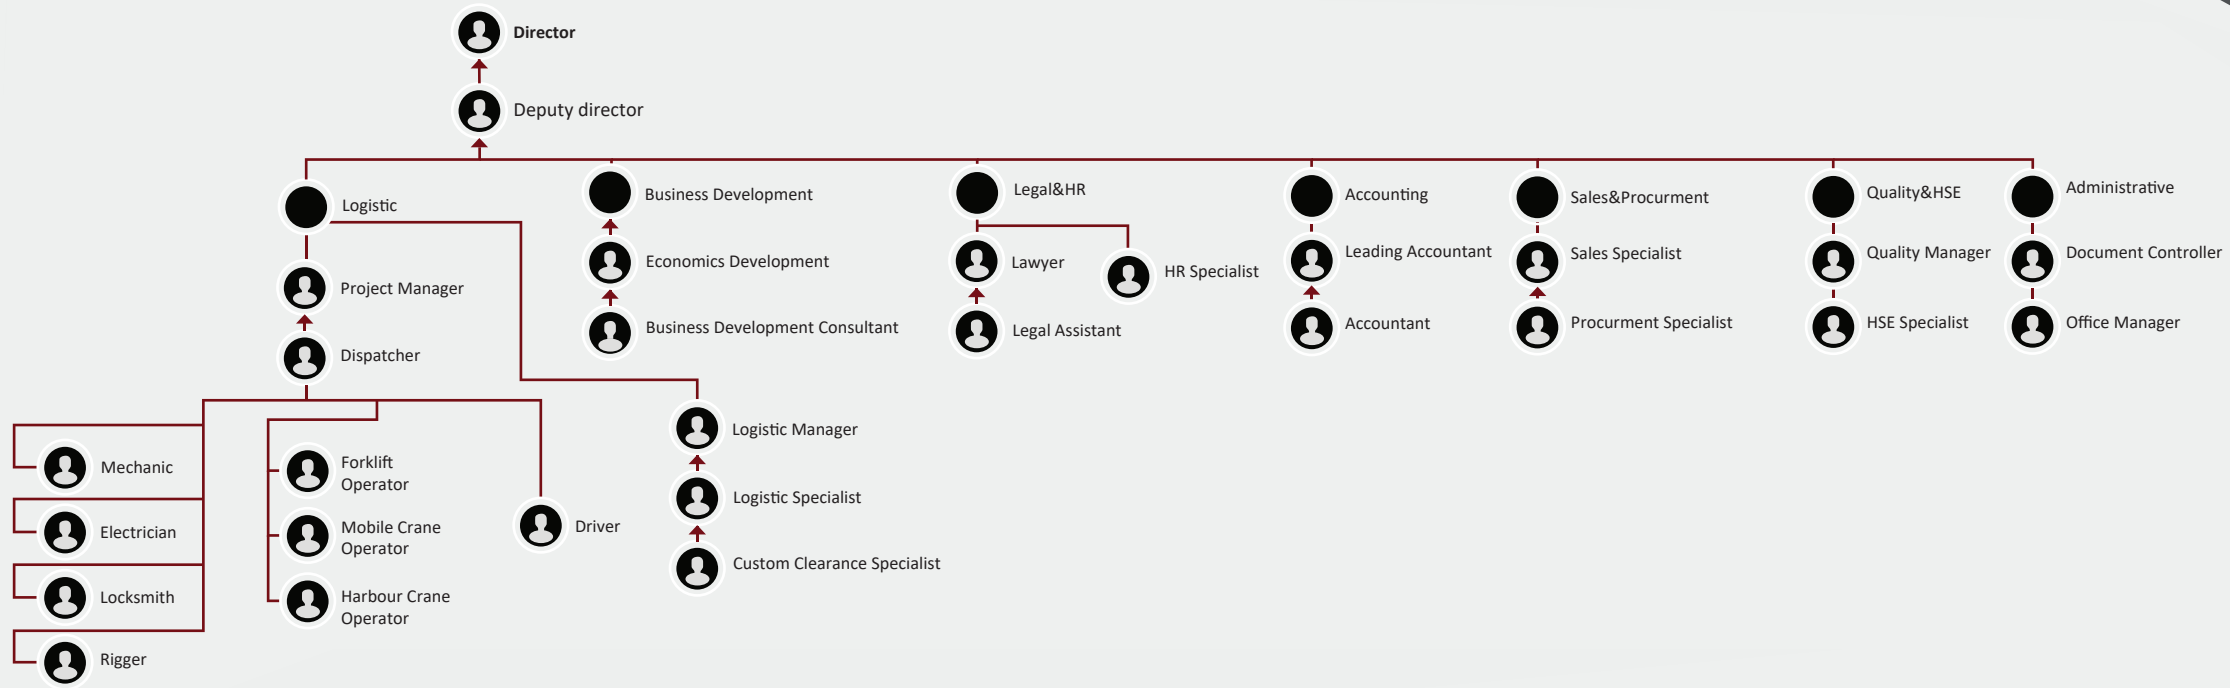

Heavy lifting equipment

Mobile construction cranes, all terrain, rough terrain, crawlers, and more – Kayton's fleet of heavy lifting equipment is the most comprehensive in the world. We are also leading innovators in jack-and-slide systems, and our special equipment offering covers push-up systems, a range of gantries, hydraulic jacks, skidding systems, weighing systems, ballast solutions and winches. We can help you choose the right equipment for your situation, and improve the efficiency of construction, installation or servicing projects through our expertise.

Heavy transport equipment

The heavy lifting machinery Kayton offers is complemented by the latest haulage equipment. Our range of truck units and trailers are available for rental, meeting the needs of most conventional operations. For large loads and heavy haulage requirements, Kayton supplies self-propelled trailers (SPTs) and is a leading innovator in the development and use of self-propelled modular transporters (SPMTs). We offer heavy duty railcar transport and if you need assistance with barge and shipping transport, Kayton can help you through its global network of logistics contacts.
